PRESS RELEASE

London-based producer, writer and multidisciplinary creator **whereisko** presents Khabushka Vol. 3: Madrid, the first chapter in The España Capsule, an ongoing series of lounge house releases inspired by cities, experiences and observations connected to Spain.

Blending warm grooves, atmospheric textures and understated melodies, Madrid functions as a musical postcard. Rather than attempting to recreate a destination, the project captures the feeling of movement, discovery and reflection through sound.

The origins of the project stretch back nearly a decade.

Between 7th and 19th May 2016, whereisko created a collection of instrumental sketches under the working title España. At the time, he had never visited Spain. The music came first. The experiences followed.

Over the years, those recordings remained unfinished, revisited periodically but never fully realised. Following multiple visits to Madrid and Barcelona, and a renewed commitment to focused intention in his creative practice, the original ideas were revisited once more.

The result is Khabushka Vol. 3: Madrid.

Created using Native Instruments Maschine and completed almost ten years after the first sketches were recorded, Madrid represents the meeting point between inspiration and experience, preserving the spirit of the original recordings while benefiting from years of personal and creative growth.

"The music existed long before I ever visited Spain. What changed wasn't the destination. It was me.

Returning to these ideas years later allowed me to hear them differently. Madrid became the first completed chapter from a body of work that had been quietly waiting for the right moment."

Built around lounge house rhythms, melodic textures and an unhurried sense of movement, Khabushka Vol. 3: Madrid is designed as a soundtrack for travel, creative focus, reflection and everyday life.

As The España Capsule continues, future releases will expand upon the themes introduced in Madrid, creating an evolving catalogue of music inspired by place, memory and experience.

ABOUT THE ESPAÑA CAPSULE

The España Capsule is an ongoing collection of lounge house releases inspired by Spain.

What began as a folder of unfinished musical sketches in 2016 has evolved into a long-term creative project exploring atmosphere, movement and memory through sound.

Each release draws inspiration from places, observations and experiences, creating musical postcards that sit somewhere between soundtrack, travel journal and personal reflection.

Madrid serves as the opening chapter. ABOUT WHEREISKO

whereisko is a London-based producer, writer, podcaster and creative documentarian.

Across music, books, blogs, podcasts and visual media, he documents creativity as a lived experience. His work explores themes of culture, travel, identity, observation and personal growth, often blurring the lines between documentation and artistic expression.

Whether through music, words or visuals, whereisko is interested in preserving moments that might otherwise be forgotten.
